Weekly Activities and Status Report for DD/ICS--14 September

CIPC Organizational Activities

- The September CIPC meeting scheduled for 1000 hours, 26 September, has been cancelled, and the members have been advised. (Attachment)

- This action was necessitated because several working group members--particularly DEA, State and DIA--needed additional time, at least a week, to review and comment on the draft Narcotics Report.
- The working group will now meet on 19/20 September to conduct their page-by-page review of the report. However, a brief meeting of the working group was held on 8 September to obtain initial reactions to the draft report.
- The working group has been tasked to provide the ES/CIPC the final draft Narcotics Report by 26 September.

- As a result of the foregoing, the CIPC Meeting and Milestone Calendar has been revised. (Attached)

- Additionally we now need to establish a CIPC meeting date in October for the committee to comment on the Narcotics Report--will discuss options with you when we meet. (See attachments)

- Outstanding Action Items:

✓ - Cruise Missile Report

- \* The members' respective comments on subject report are due on 19 September. In an effort to expedite production of the report and ensure delivery to the DCI/DDCI by 23 September we have the following actions underway:

- \*\* The CIA Print Shop is developing a galley proof of the report--should be available in 2/3 days; and

- \*\* The DDS&T Graphics Shop is reproducing the various graphics contained in the report; about 50 percent of them have been completed; the remainder should also be ready in a couple of days.

WORKING PAPER

~~TOP SECRET~~

25X1

- China Working Group

- \* As reported last week the China Working Group has been constituted; however, we are waiting for DIA to provide a nominee to serve as chairman of this group. We plan to finalize the group this week and hopefully convene the working group next week. It is noteworthy that several of the working group members have called and are anxious to proceed.

- Establishment of a MASINT Subcommittee

- \* We have forwarded a memo to C/SIGINT Committee, via the DD/ICS, recommending that SIGINT develop appropriate implementation procedures for the subcommittee. We also requested they consider the concerns expressed by some CIPC members regarding the establishment of a subcommittee in lieu of a full DCI committee.

Narcotics Working Group Activities:

- [ ] chaired the second meeting of the Panel on Use of Classified Information in Drug Enforcement. [ ] Also, the revised Terms of Reference (TOR)(attached) were considered. Some minor revisions may be forthcoming, but the Panel will likely approve the TOR much as it appears. The group seems somewhat well focused now but [ ] opines that a working group--even one of this rather modest size--is a contradiction in terms. He plans to get the NSA and CIA reps here early next week for a day-long rump session to begin drafting a report. Given the very short suspense for this very complicated problem, this is probably a good approach.

Cruise Missile Study:

- [ ] continued to work on the Chairman's Special Programs memorandum for the Cruise Missile Report. [ ]

CW/BW Future Monitoring Potential:

- The C/CIPC, VC/CIPC and staff visited Edgewood Arsenal for a one-day series of briefings on detection capabilities presented by the Army's Chemical Research and Development Center. An MFR on this is being drafted.

- A draft copy of SNIE 11-17-83, "Implication of Soviet Use of Chemical and Biological Weapons," was obtained and studied by CIPC staff. The document is extremely pessimistic concerning US intelligence treaty monitoring capabilities and prospects, and Soviet attitudes and motivations in honoring extant or future treaty obligations in this sphere.

Office of the Chairman

NOTE FOR: CIPC Members and Observers  
Chairman, Narcotics Working Group

FROM:   
ES/CIPC

25X1

SUBJECT: CIPC Meeting of 26 September

1. The CIPC meeting scheduled for 1000 hours, 26 September, to review and discuss the Narcotics Report has been cancelled.

2. This action was necessitated because several working group members needed additional time--at least a week--to review and comment on the draft Narcotics Report. By accommodating this request there is insufficient time available for the respective committee members to prepare for the 26 September meeting.

3. We will reschedule this meeting for early October. As soon as a specific date is determined I will let you know.

4. If I can be of further assistance, please let me know.
